SUMMARY

Passionate full-stack developer with strong experience building multiple systems. I enjoy solving problems through code, continuously improving my skills, and exploring different areas of the IT industry — contributing to meaningful projects while expanding my knowledge of software development and emerging technologies.

SKILLS

Programming: JavaScript, PHP, Java, C++

Web Development: Laravel, Vue.js, React.js, Next.js, HTML, CSS, Bootstrap, Tailwind, Inertia.js, TypeScript

Databases: MySQL, phpMyAdmin

Tools: Git/GitHub, VS Code, XAMPP, Postman, Figma, Docker

Networking: LAN/WAN, IP Addressing, Wireshark

SELECTED PROJECTS

Profanity Detection API [Laravel](#) · [REST API](#) · [React](#)

Custom profanity detection API specialized in Tagalog and regional Filipino terms. Designed to integrate with posts, comments, and messaging systems to automatically detect and block inappropriate language. Deployed and integrated by external services.

Lost and Found System [Laravel](#) · [Vue.js](#) · [Inertia](#)

Capstone project — community platform for reporting and recovering lost items with real-time status updates and searchable categorized listings.

Protec Damayan [Laravel](#) · [Vue.js](#) · [SMS Integration](#)

Mutual-aid system for fund records and disbursements with automated SMS death announcements via Semaphore.

School Portal [Laravel](#) · [Vue.js](#) · [Inertia.js](#)

Student information and access system with role-based authentication for students, teachers, and administrators.

EDUCATION & LANGUAGES

Bachelor of Science in Information Technology (2022–2026)

Sorsogon State University — Bulan Campus

Languages: English, Filipino
